Don't Buy More Than You Need

At Honeywell, we know HVAC. The Genesis® Series Hybrid Thermostat cable from Honeywell is engineered to the current and power requirements of modern HVAC systems. Hybrid Thermostat uses different conductors to meet the needs of the equipment, not outdated practices, and is guaranteed by Honeywell. Visit www.honeywellcable.com/HYBRID to learn how Hybrid cable works.

If you're looking for a better cable solution engineered to your needs, call your Honeywell Genesis Series Cable Authorized Distributor and ask for Hybrid Thermostat cable!

ONLY wire from Honeywell Genesis Series Cable qualifies for Honeywell Contractor PRO™ points! Earn points for buying the product you use every day! Go to www.contractorpro.com for program details.

Let Honeywell's continuing innovation in cable design improve your business with uncommon... cents.
